

Project	Christchurch City Mission
Award rating	N/A
Location	Hereford St, Christchurch
Architect/Designer	Design Studio Christchurch
Head contractor	Hawkins Constructions
Product	Dual manual roller blinds
System	SP45 chain control
Fabric	SP View® Pearl Sable & Simply Block® Seal

The challenge

The City Mission is a multifunction building requiring design aesthetics and functional simplicity. Robust product performance was required in areas where clients are held or temporarily housed with a consistent colour palette throughout.

The SP solution

Robust SP45 components, stainless steel looped chains, and chain tensioners in sleeping areas ensure performance in the more demanding areas. The easy-care SP View® and Simply Block® fabrics provide a good long-term solution that can be washed and cleaned.
