

Project	Mt Albert Grammar School
Award rating	N/A
Location	Mt Albert, Auckland
Architect/Designer	Strata Architects
Head contractor	Hawkins Constructions
Product	Roller blinds
System	SP45
Fabric	SP View® Vanilla & Simply Block® Sand

The challenge

The toughest roller blind challenges usually involve a situation where misuse causes maintenance issues. School environments are notoriously difficult and this one was no different.

The SP solution

Robust components and construction, and meticulous care with installation is required to ensure minimum maintenance issues. This, along with a recommendation for fibreglass and PVC constructed sunscreen and the hardy Simply Block® fabric, has resulted in an excellent product serving the needs of this high profile school with little call for ongoing repair work.
